

Dear Limor -

This is a much belated thank you for the items you sent me. Every now and then I also look at the CDs you made for us - Mom looked so happy and it comforts me to see her like that again.

We've moved my Mom to a 6 person residential board & care in Huntington Beach. The larger place in Santa Ana did not work well for her needs.

Mom's new doctor has weaned her off the Abilify & some other

heavy duty medications so she has more "life" in her eyes. She "babblers" most of the time and does not really have conversations but she can still answer simple questions.

Mom still eats well but she needs assistance with all her daily living activities.

Limor, thank you again for all your kindnesses. You gave me much support & encouragement.

Best wishes to you. Celia
